

Nationwide®

A simple underwriting experience

Nationwide CareMatters® Annuity is a streamlined long-term care (LTC) solution that can help you protect more clients. The simplified underwriting experience has fewer requirements, including no health interview¹ or Part B application and no attending physician statement (APS) or paramedical exam.

Application Submission (financial professional and client)

Pre-application:

- [Pre-screen](#) your client or review the height and weight guidelines and 6 underwriting questions below that determine insurability and rate class
- Verify your licensing appointment with Nationwide
- Complete annuity suitability (see section below)
- Ensure you have completed all [required training](#)
- Provide an outline of coverage to the client

The proposed insured must complete:

- The application
- The LTC personal worksheet
- 1035 paperwork, if applicable
- Other state-specific forms

Annuity Suitability must be completed at or before application submission.

This process may be completed through your firm or through Nationwide. If utilizing Nationwide's suitability process, the following guidelines must be met:

- Annuity concentration must be less than 75% of client's net worth
- Client must have liquid assets to cover 3 to 6 months of expenses
- Your client's surrender charges cannot exceed 8% (e.g., CDSC, MVA, Bonus Recapture)
- Any contracts being replaced must be at least 3 years old

Height and weight guidelines:

FOR FINANCIAL PROFESSIONAL USE — NOT FOR DISTRIBUTION TO THE PUBLIC

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.

Fixed annuities are contracts purchased from a life insurance company. They are designed for long-term retirement goals. Withdrawals are subject to income tax, and withdrawals before age 59½ may be subject to a 10% early withdrawal federal tax penalty.

If you annuitize a nonqualified annuity, a portion of your payment will be considered a return of premium and will not be subject to ordinary income tax. The amount that is taxable will be determined at the time you elect to annuitize the policy. Upon annuitization, LTC benefits terminate unless the LTC Nonforfeiture Rider was elected in the contract, in which case benefits are significantly reduced. Withdrawals also reduce the available LTC benefits.

Nationwide CareMatters Annuity is a cash indemnity product that pays LTC benefits when the insured person is certified to have a qualifying condition and a need for LTC services. Bills and receipts showing actual expenses do not have to be submitted for payment of benefits once a claim has been approved. Each year, the contract owner can receive, tax free, the greater of the HIPAA per diem amount or actual LTC costs incurred. However, benefits may be taxable under certain circumstances. Taxpayers should consult with their tax and legal advisors about their specific situation.

Individual care needs and costs will vary, and there is no guarantee that the long-term care benefits paid under the contract will cover the entire cost of the insured's long-term care. Nationwide pays benefits to the contract owner. If the contract is owned by someone other than the insured, there is no guarantee that the contract owner will use the benefits to pay for LTC services.

All guarantees and benefits of the contract are backed by the claims-paying ability of the issuing insurance company. Contract guarantees and benefits are not backed by the broker/dealer and/or insurance agency selling the policy, nor by any of their affiliates, and none of them makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

Approval for long-term care coverage under the contract and attached riders is subject to underwriting based on questions in the application and a cognitive screening for applicants age 70 and older.
